Dr. Craig Hillman to Present at CMSE in Los Angeles
CEO of DfR Solutions will Present
“Selecting a Lead Free Solution for Military, Avionic and Space Applications”

College Park, MD – February 27, 2007 – Dr. Craig Hillman, CEO and managing partner of DfR Solutions, will present two half-day seminars at the Commercialization of Military and Space Electronics (CMSE) conference in Los Angeles, CA on March 12. The seminar, entitled “Selecting a Lead Free Solution for Military, Avionic and Space Applications” will provide critical data and information on developments over the past 6 to 12 months in Pb-free technology, including market trends, process solutions, and quality and long-term reliability issues. Recent GEIA documents, which are expected to be the backbone of lead free product qualification for military and avionic applications, will be reviewed in regard to risk minimization.

DfR Solutions is a leader in quality and reliability solutions for the electronics industry. The company has performed more than 500 failure analysis investigations, and has worked with the majority of the Fortune 200 companies that design or manufacture electronics. Dr. Hillman has published over 40 papers in the areas of electronics quality and reliability, and has presented to more than 200 companies and organizations world-wide.

For more information on the seminar contact Craig Hillman at CHillman@DfRSolutions.com. For information on the conference contact Leon Hamiter at lhamiter@cti-us.com.

About DfR: DfR Solutions has world-renowned expertise in applying the science of Reliability Physics to electrical and electronics technologies, and is a leading provider of quality, reliability, and durability (QRD) research and consulting for the electronics industry. The company’s integrated use of Physics of Failure (PoF) and Best Practices provides crucial insights and solutions early in product design and development and throughout the product life cycle. DfR Solutions specializes in providing knowledge- and science-based solutions to maximize and accelerate the product integrity assurance activities of their clients in every marketplace for electronic technologies (consumer, industrial, automotive, medical, military, telecom, oil drilling, and throughout the electronic component and material supply chain).
