Jim McLeish of DfR Solutions to Present Workshops at Asian Convergence for Electronics in Malaysia

College Park, MD – June 5, 2007 – Jim McLeish will present two workshops during the Asian Convergence for Electronics (ACE) in Kuala Lumpur June 20-22, 2007. “Lead-Free Interconnection: Technology and Connection” will be presented on June 20, and “Design for Manufacturability/Assembly” will be presented June 21-22. The conference will take place at the Crowne Plaza Mutiara in Kuala Lumpur, Malaysia.

McLeish is a senior member of the technical staff at DfR Solutions, and manager of the company’s Michigan office. Prior to joining DfR, McLeish held numerous management and technical leadership positions in engineering, QRD, and product assurance at General Motors (GM) Corporation and Chrysler Corporation. Mr. McLeish is an ASQ-certified reliability engineer who has over 30 years of automotive and military electrical/electronics (EE) experience and lectures on product assurance at Lawrence Technology University in Southfield Michigan.

About DfR: DfR Solutions is a leader in quality and reliability solutions for the electronics industry. The company has performed more than 500 failure analysis investigations, and has worked with the majority of the Fortune 200 companies that design or manufacture electronics. The company’s integrated use of Physics of Failure (PoF) and Best Practices provides crucial insights and solutions early in product design and development and throughout the product life cycle. DfR Solutions specializes in providing knowledge- and science-based solutions to maximize and accelerate the product integrity assurance activities of their clients in every marketplace for electronic technologies (consumer, industrial, automotive, medical, military, telecom, oil drilling, and throughout the electronic component and material supply chain).
