Dr. Craig Hillman to Present Paper at SMTA Successful Lead-Free RoHS Strategies Conference

Session to Focus on Tin Whisker Risk Assessment

College Park, MD – May 31, 2007– Craig Hillman will present “A Case Study in Tin Whisker Risk Assessment” at the SMTA Successful Lead-Free RoHS Strategies Conference in Boxborough, MA. The conference will be held June 20-21, 2007.

DfR Solutions is a leader in quality and reliability solutions for the electronics industry. The company has performed more than 500 failure analysis investigations, and has worked with the majority of the Fortune 200 companies that design or manufacture electronics. Dr. Hillman has published over 40 papers in the areas of electronics quality and reliability, and has presented to more than 200 companies and organizations world-wide.

For more information on the conference contact Melissa Serres at Melissa@smta.org.

About DfR: DfR Solutions has world-renowned expertise in applying the science of Reliability Physics to electrical and electronics technologies, and is a leading provider of quality, reliability, and durability (QRD) research and consulting for the electronics industry. The company’s integrated use of Physics of Failure (PoF) and Best Practices provides crucial insights and solutions early in product design and development and throughout the product life cycle. DfR Solutions specializes in providing knowledge- and science-based solutions to maximize and accelerate the product integrity assurance activities of their clients in every market-place for electronic technologies (consumer, industrial, automotive, medical, military, telecom, oil drilling, and throughout the electronic component and material supply chain).
