

Randy Schueller, Ph.D.

Senior Member of Technical Staff, Minnesota Office Manager, DfR Solutions

Dr. Schueller has held numerous management and leadership positions at companies including 3M and Extreme Devices (an Austin high tech start-up company), where he developed flex-based IC packages. He has also worked at Dell, where he assisted in resolving failures in IC packages, connectors, PWBs, and assembly issues. He currently holds 15 patents and has authored and presented more than 30 papers within the electronics industry. Dr. Schueller is the head of DfR's office in Minneapolis, Minnesota, which opened in November 2008. Randy received a B.S. in Physics from St. John's University, and a M.S. and Ph.D. in Materials Science and Engineering from University of Virginia.
